OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhoea, Cramps, Spasms Bilious Cholie, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Dip-theria, Hoarsemss, Sore Throat, Chills, Fever and Ague, Meccurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also take a teaspoonful of the Ready Relief in a ginse of warm water, sweetened with sugar or honey; bothe the threat, head and chest with Reasiy Reilef, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

#### How the Ready Relief Acts!

In a few minutes the patient will feel a slight fingling irritation, and the skin be-comes reldened; if there is much distress in the stomach, the Relief will assist nature in removing the offending cause,—a general warmth is felt throughout the entire body, and its diffusive stimulating properties and its diffusive stimulating properties applily courses through every tein and diseas of the system, arousing the slothful and partially panalyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stumach colid, chills, head-ache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally, rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured. shed, invigorated, cured.

It will be found that in using the Relief externally, either on the spine or across the kidneys, or ever the stomach and bowels, that for several days after a pleasing warmth will be felt, showing the length of time it coninues its influence over the diseased parts.

# TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one tea-spoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.
If seized with Fever, take 4 to 6 of

discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat through-out the system. Keep on taking Relief repeatedly, every four hours, also the Pills. A cure will be sure to follow. The relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bili Fever, will effect a cure in 24 hours When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt the Relief should be used.

The Committee on Commerce made the following report:
To H. H. M. Kakuamoo, President of the Legislative Assembly:
Sin\_Your Committee were instructed by the Assembly, on the 4th of May, to give hearing to all parties interested, and to report as to the expediency of granting subsidies to any company formed for the purpose of inter-island navigation, and also as to the like expediency of granting a subsidies to any of granting a subsidies. In the United States, as placed alongside of the railroads which run from West to East, may be cited as an example. This proportion seems to the Committee, to be at present maintained between these Islands and Francisco by the combination of one steamer with the existing number of sailing vessels, which creates a healthy competition between both.

His Ex. C. de Varigny moved that the report be published in both languages, and that Munday next be set apart for its consideration, and every succeeding day until the final vote.

Mr. Wilder amended to adopt the report. He was of opinion that time enough had been used in the consideration of this question. A good committee had been examining the subject for several days, and they knew more of the various bearings of the care than did the Hause.

House.

His Ex. C. de Varigny thought that his motion was the proper one. For himself, he knew little of it, as he had not attended the meetings of the Committee. If the report was approved, it would virtually pass the appropriation for the steamer Kilausa without any consideration. Besided these various points, the question ought to be discussed in public for the benefit of all parties interested.

His Ex. S. H. Phillips was of opinion that this quastion was one of great importance and should be deliberately considered by the House. It was carefully examined by the Ministry before insertion into the budget. At their motion it was referred to a committee, whose report

fore theertion into the budget. At their motion it was referred to a committee, whose report was worthy of great respect, but which the House were not bound to accept without debate. It was not the duty of the members to attend the meetings of the committee, and they could not be prepared to vote intelligently without eramination of the subject. Every member of the House should have a chance to medicer of the Bouse should have a challer to fully examine the report and act upon it with judgment. Yet a motion is before the Assem-bly to vote at once and decide the whole ques-tion. He supported the motion of His Ex. the Minister of Foreign Affairs. This ques-tion was one fairly addressed to the deliberation was one fairly addressed to the delibera-tive judgement of the House. If it should be seen hereafter that a mistake had been made.

tive judgement of the House. If it should be seen hereafter that a mistake had been made, all of us would deprecate our hasty action. On the other hand, he would not postpone too long. Let it come up next week, and after full debate, let the vote be taken.

Mr. Hitchcook was opposed to further postponement. The matter had been examined by a standing committee of the House, and their report signed by the suffice committee. If we postpone, it is equivalent to a disapproval of the report on the part of some members. He saw no reason to put off the consideration of the question. The House were probably as well prepared for its discussion and the vote now as they ever would be. There was no use of again going over the ground that had been ably examined by the committee, thereby using time of the Assembly which might be well occupied in other business.

Gov. Mahelona opposed hasty action. There was a diversity of interests involved which must be considered. The dignity of the House itself was concerned. He was of the opinion that we should immittate the example of the U. S. Congress. They had not yet settled the question of Reciprocity, although it had been considered by them several mooths. It we is no disrespect to the committee to take time.

Mr. Rhodes thought that the matter should be discussed at length. He saw that there must be some prejudice at work, or the members would not object to examination. Yet although he sow advocated discussion, he must not be understood as advocating the passage of the appropriation. He wished first to hear the arguments on all sides.

Mr. Judd said the object of the Committees was to save the time of the House. Them why was an objection advanced to secepting the report of a committee especially on a matter

was an objection advanced to accepting the re-port of a committee, especially on a matter that had been so carefully examined. His Ex. C. de Varigny thought that the re-marks of the member for Koolaspoke indica-ted that his opinion was already made up. He hoped that the majority would allow time for discussion.

Mr. Koakann said that if he heard right, Mr. Koakann said that if he heard right, the Minister of Pinanes said this matter had been carefully considered by them before insertion in the Budget. Now they wished to have the matter again examined. He did not understand this. As for himself, he had atsitended the meetings of the committee, and after hearing the argument of both sides, he supported the report of the committee to indefinitely poetposse. He thought that some in the House were projudiced in favor of the subsidy. If the appropriation passed, where was the moving to come from? From the flowernmant? No: but from the hard earnings of the people. If the uniton had any money to spare, let it be put upon internal improvements.

Mr. Keawehunahala wished to see this question fairly discussed, and supported the motion of the Minister of Foreign Affairs. He thought that all the good measures came from them. The question was then put, the ayes and noce being called.

Mr. Hitchcock's motion to adopt and print the report was put. Ayes 24, Noce 14.

had given their ears only to one side. The action of the House appeared as if a private understanding had been made before, on the subject, for the purpose of shutting the menths of members. What he wanted was to have the report printed and made the order of the day for Monday the 25th inst. He was zurprised that any one objected to the printing of the report. For himself, he was here to work for the public good, and he would stick to his principles. One of them was that this subsidy would be an internal improvement, as the country will be benefitted thereby.

The ayes and nays were called upon the motion. Ayes 21, nays 18.

His Ex. C. de Varigny moved to print the report of the Committee, and have the same printed. He said that he objected on the same ground as yesterday—the admitting the report of the duffeiers Committee on the Honolulu election. That was an important matter, which was placed in the hands of a Committee, and their report was accempted without remark. He asked the House to discuss the question clearly and freely, not to cut off all debate in the hasty manner asked by the amendment of Mr. Hitchcock.

clearly and freely, not to cut off all debate in the hasty manner asked by the amendment of Mr. Hitchrook.

Mr. Kalakana supported the motion of the Minister of Foreign Affairs.

His Ex. F. W. Hutchison said that if the report of the Committee was approved, it would grant a subsidy of \$16,000 to the steamer Affairs.

He was opposed to that, not against subsidiaing inter-ialand steam communication, but the Affairs in particular. He thought that alone was sufficient reason for discussing the report before the House. If the point referred to by the member from Hilo, on the Honolulu election, had been proposed for discussion, he thought that all of his colleagues would have voted age.

Mr. Bishop said that the opposition of the member for Hilo was most astenishing. All the members could not fully understand this matter, because that even if they could they had not attended the meetings of the Committee as a general thing. As far as he knew, no one of the Committee personally was in favor of the subsidy. He had not heard the report of the Committee personally was in favor of the subsidy. He had not heard the report of the Committee on account of the low voice in which it was read. Two days had been spent in trying to choke off discussion.
